Fisheries and Oceans Canada (DFO) is changing the way you report your catches and effort.

The national Electronic Logbook (ELOG) initiative allows fish harvesters to submit their catch data electronically.

Go to the ELOGS site at: dfo-mpo.gc.ca/elogs

1. Find your region and your fleet to get a list of qualified software.

2. Select a DFO qualified software from the list of suppliers.

3. Obtain your ELOG Key.

   a. Click on the "Get your ELOG key" link. Enter your Government of Canada Key User ID (GCKey) and password, the same ones you use to access the National Online Licensing System. Your ELOG Key and instructions will appear

Questions regarding support for product installation and software use, should be directed towards the application developer. The software support contact information can be found in your ELOG application's User Guide or on DFO's list of qualified ELOG applications located at the following webpage:

www.dfo-mpo.gc.ca/qualified/index.htm

For all other questions, call us at: 1-877-535-7307, Monday to Friday from 7:00 a.m. to 8:00 p.m. (Eastern Time).

Or, email us: mailto:fishing-peche@dfo-mpo.gc.ca
